Welcomed the New Year with Joy and Hope

Happy New Year 2024! As we step into the first month of 2024, we extend our warmest wishes to you and your loved ones. May this year bring you abundant happiness, prosperity, and fulfillment. May you find the courage to pursue your dreams, the strength to overcome challenges, and the joy of shared moments with friends and family. Let's embark on this journey together with optimism and gratitude, cherishing each day as a new opportunity for growth and connection. Here's to a fantastic year ahead filled with love, laughter, and endless possibilities.

Vistare Alumni Day 2024

Once Vistare Girl, always Vistarean. Vistare Alumni will always be there actively involved with the members of the Vistare Family. Vistare Alumni's establishment day is marked as reunion day. As a yearly Alumni Day gathering January 2024 having completed the fourth year, 14 Vistare alumni had a remarkable visit to mark Vistare Alumni Meet 2024. This time, Vistare Alumni gathering was organized at Sankha Park, which is within walking distance of Vistare Foundation-Asia Education Foundation Nepal, Dhumbarahi Office.

In total, Vistare Foundation Girls Home Project has 52 alumni. Out of 52 former girls, some are out of Kathmandu valley and some other are abroad. The girls who are in Kathmandu valley had been informed and invited to attend the program. Among them, 14 girls attended it. By organizing a short program, the day went very well and all of the girls benefited from it.

All the girls cherished each other's company and had a great afternoon all together having delicious lunch and snacks at A-ONE Café, Dhumbarahi.

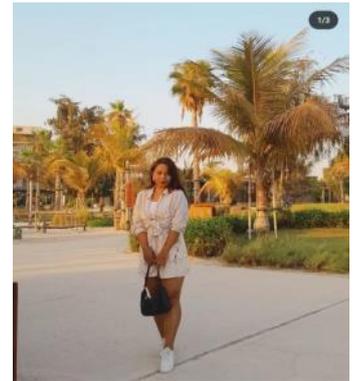

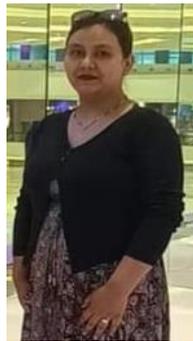

Nepal has been an epitome of this world full of people from diversified cultural, linguistic, religious and social background. In fact, it is a world itself. The people who aim to make achievements find plenty of opportunities here because there are many instances of success in this land. They have not only earned name, they have made Nepal known to the world having adopted their own career and professions here in Nepal. Business, Agriculture, Education, Health, Media and Communication, Travel and Tourism are a few of the sectors in which many Nepalese have flourished and made their dream come true since the past few decades. There are a plenty of examples that prove that this land of opportunities is just the right place for those who wish to remain in their native land and serve it.

Although the trend of mingling in the global market is on the rise nowadays, there are such Nepalese who have remained here seeking their future. A few of them are the Vistareans. The Vistare girls who have ventured into the field of Education, Health, Travel and Tourism, Media and Communication, Information Technology, Finance and Banking, Students, Consultancy, Self Employment, Human Resource Management and Housemaking are plenty. Having been Vistarean for considerable duration of time, they acquired knowledge, skills and attitude to be fit for the competent world. They have proved themselves worthy human resources contributing to development of the nation in some way. They will definitely be able achieve what they desire.

The world is a global village. Globalization is at its peak point at present. There is exchange of human resources among the countries of the world. Advancement in technology has made it possible. The concept of an individual belonging to a particular nation is gradually taking a turn. A competent human can belong to any nation that values their competency. Particularly in Nepal, Nepalese aim to reach the global market in order to unleash their real potential. Highly skilled, skilled, semi-skilled and non-skilled all aspire to go abroad and make an earning that would uplift their status. There are many instances of Nepali students and employees who have made remarkable achievements in various realms earning name and fame in the global world, and while at the same time familiarizing Nepal globally.

Having been well equipped with life skills and professional skills, Vistare Alumni are already out in the world of professionalism. A number of girls have already settled themselves in the global scenario, a few other girls are aiming to achieve and make accomplishments, and some other are paving their paths. Study abroad or employment abroad has become a choice for some of the girls. They are in various countries as students or employees. UAE, Kuwait, India, Australia, Japan, Austria, Canada are few countries to name in which Vistare Alumni are studying and employed. Vistare management, and the entire Vistare family are gratified at its alumni's progress.

Two more Vistare alumni girls have unveiled their writing skill via a popular magazine ECS NEPAL. Rejina Thapa Magar and Pema Lhamu Sherpa's articles have been featured in the magazine's issue 236 January 2024.

Rejina writes 'Foods to Try While in Solukhumbu' discussing food items such as Shyakpa (Sherpa Stew), Rildok (a traditional dish in the Sherpa community), Tsampa, SuChya (Butter tea) and Chhyang (an alcoholic beverage) in her article.

Likewise, Pema Lhamu's article 'Sacred Sandalwood Chandan's Symbolic Role in Hinduism' elaborates the deeply ingrained significance of sandalwood in Nepali culture. Her second article in the same magazine is titled 'Brass Anti: Traditional Nepali Wine Pot'. In the article, she has detailed about the brass pot and its significance in Newari culture.

Sabina Rai, another Vistare alumni, debuted as a promising writer in the magazine in issue 235 December 2023.

Sabina Rai's two more articles have been featured in the latest issue also. The first one titled 'Welcoming Spring in Kirat Style: Udhauli and Ubhauli' and the second one titled 'Symbol of Modernism in Nepal: Taragaon Next' have been published along with Rejina and Pema's article in the latest issue 236.

Asia Education Foundation now sees three alumni girls as promising young writers. It is said 'A journey of thousand miles begins with a single step'. The journey has already begun. This venture will surely lead them to becoming writers in future. Asia Education Foundation wishes them all the best.

Happy International Day of Education!

Education is the most powerful thing that is needed for each and every human being. The core essence of Vistare Foundation is Education.

Keeping education in the core of the heart, Vistare has been emphasizing educating the underprivileged aspiring children from the rural livelihood of Nepal. International Day Of Education is reminder to say 'Celebrate the magic of learning and the endless possibilities it brings'. Vistare knows that education is the key to unlocking dreams and building a brighter future. It has always embraced the journey of knowledge, and together has made contributions to empower minds and inspire change.
